

SF MONTHLY INCOME BOND

B Gr Acc - Fund Factsheet - Covering the month of November 2023

Kenny Watson, Aitken Ross & Jack Willis

The Fund

The aim of the Fund is to produce monthly income payments together with capital growth using the Sustainable Future investment process and investing at least 80% of the portfolio in investment grade corporate bonds that are sterling denominated or hedged back to sterling. The Fund targets a net total return of at least the IBOXX GBP Corporates (5-15Y) Index over the long term (rolling 5-year periods). While the Fund has been structurally short duration since launch, it has the flexibility to revert to a standard duration fund as and when yields normalise. All investments will be expected to conform to our ESG criteria.

Our experienced fund management team

Fixed Income investments for the Liontrust Sustainable Investment team are managed by Kenny Watson (formerly at Ignis Asset Management for 15 years where he was responsible for sub-investment grade bond portfolios), along with Aitken Ross and Jack Willis who also started their careers in the graduate scheme at Alliance Trust Investments (ATI). The team joined Liontrust in April 2017 as part of the acquisition of ATI.

Discrete years' performance (%)

To previous quarter 12 months ending:	Sep 23	Sep 22	Sep 21	Sep 20	Sep 19
Liontrust Sustainable Future Monthly Income Bond	9.9	-22.4	4.7	3.7	5.0
iBoxx Sterling Corporates 5-15 years	9.8	-25.4	0.4	4.5	10.9
IA Sterling Corporate Bond	7.3	-20.5	1.3	4.2	9.0
Quartile ranking	1	3	1	3	4

Key risks: Past performance does not predict future returns. You may get back less than you originally invested. Further Key Risks can be found on the 2nd page.

^{*}Duration is a measure of the sensitivity of the price of a fixed-income investment to a change in interest rates in years. [†]The Distribution Yield is higher than the Historic Yield because the fund distributes coupon income and a portion of the fund's expenses are charged to capital. This has the effect of increasing distributions while constraining the fund's capital appreciation.

Charges

Initial charge	0.00%
Ongoing Charges Figure*	0.56%
Included within the OCF is the Annual Management Charge**	0.50%

*The Ongoing Charges Figure (OCF) covers all aspects of operating a fund during the course of its financial year. These include the annual charge for managing the fund, administration and independent oversight functions, such as trustee, depository, custody, legal and audit fees and the ongoing costs of underlying investments including open and closed ended collective investment schemes. The OCF **excludes** portfolio transaction costs except for an entry/exit charge paid by the Fund when buying or selling units in another fund. This will have an impact on the realisable value of the investment, particularly in the short term. **These are the annual costs of running and managing the Fund.

Important information

Key Risks: We recommend this fund is held long term (minimum period of 5 years). We recommend that you hold this fund as part of a diversified portfolio of investments. All investments will be expected to conform to our social and environmental criteria. Bonds are affected by changes in interest rates and their value and the income they generate can rise or fall as a result; the creditworthiness of a bond issuer may also affect that bond's value. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts. The value of a bond would be significantly affected if the issuer either refused to pay or was unable to pay. Overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund. The Fund can invest in derivatives. Derivatives are used to protect against currency, credit or interest rate moves or for investment purposes. There is a risk that losses could be made on derivative positions or that the counterparties could fail to complete on transactions. The Fund uses derivative instruments that may result in higher cash levels. Cash may be deposited with several credit counterparties (e.g. international banks) or in short-dated bonds. A credit risk arises should one or more of these counterparties be unable to return the deposited cash. The Fund may encounter liquidity constraints from time to time. Participation rates on advertised volumes could fall reflecting the less liquid nature of the current market conditions. Counterparty Risk: any derivative contract, including FX hedging, may be at risk if the counterparty fails. The level of targeted income is not guaranteed. The issue of units/shares in Liontrust Funds may be subject to an initial charge, which will have an impact on the realisable value of the investment, particularly in the short term. Investments should always be considered as long term.

Disclaimer: This document provides information about the Liontrust Sustainable Future Monthly Income Bond Fund ('the Fund') and Liontrust Fund Partners. Liontrust Fund Partners LLP (2 Savoy Court, London WC2R 0EZ) is authorised and regulated in the UK by the Financial Conduct Authority (FRN 518165) to undertake regulated investment business. Liontrust Fund Partners does not give financial or investment advice. This document does not constitute or form part of, and should not be construed as, an invitation to buy or sell units and neither this document nor anything contained or referred to in it shall form the basis of, or be relied on in connection with, any offer or commitment whatsoever. The value of units and the income generated from them can fall as well as rise and are not guaranteed; investors may not get back the amount originally subscribed. Investors should not purchase the Fund referred to in this document except on the basis of information contained in the Fund's Prospectus.
