

JOHCM Global Opportunities Fund

Fund overview

- The Fund aims to generate long-term capital and income growth through active management of a concentrated portfolio of global listed equities
- A high conviction, benchmark-unconstrained stock picking fund
- The fund managers look for opportunities where the market is underestimating the value created by well-managed companies that reinvest wisely to create sustainable compounding returns
- Benchmark: MSCI AC World Index
- The use of the index does not limit the investment decisions of the fund manager therefore the shareholdings of the Fund may differ significantly from those of the index
- Please refer to the Prospectus/KIID for further information

The value of an investment and the income from it can fall as well as rise as a result of market and currency fluctuations and you may not get back the amount originally invested. For further information on risks please refer to the Fund's KIID and/or the Prospectus. Investing in companies in emerging markets involves higher risk than investing in established economies or securities markets. Emerging Markets may have less stable legal and political systems, which could affect the safe-keeping or value of assets. The Fund's investment include shares in small-cap companies and these tend to be traded less frequently and in lower volumes than larger companies making them potentially less liquid and more volatile. The annual management charge is deducted from the capital of the Fund. This will increase the income from the Fund but may constrain or erode potential for capital growth.

NAV of Share Class A in GBP, net income reinvested. The A Acc GBP was launched on 3 May 2019. Benchmark: MSCI AC World NR (12pm adjusted). Performance of other share classes may vary and is available on request.
